

ZEN Differentiators

Following are a few key differentiating features of ZEN solutions over other offerings.

Local Solution

Advantage

Local innovation applied to solving local issues
Australian based software
Use of Australian Govt secure Data Centres

Benefits

- Local support
- Product roadmap focussed on assisting local businesses and government
- Meets Govt security requirements

Government COTS

Australian Government

Advantage

Australian Government Off The Shelf Solutions, requiring minimal configuration
For example, Department of Finance Whole of Government Reporting Annual Benchmark compliant.
Inclusion of Government Service Towers

Benefits

- Reduced time to Production - Implementation requires less configuration
- Reduced cost & Risk to Implement

ICT Business Management Domain Expertise

Advantage

Consultants all have significant ICT business management experience and qualifications, in the private and public sectors in Australia and internationally.
Recognition that implementing technology is only part of the solution. The technology is only as good as the business rules, which is where ZEN Enterprise really differentiate themselves

Benefits

- Sustainable solutions that meet the needs of clients
- Enables an implementation pathway to deliver benefits and value in a rapid timeframe
